This piece is from a slightly different die than the other two known specimens, and the & ends in a short stroke instead of a long one, as on the other specimens. This piece has been examined by eight or ten of the leading numismatists and experts of this country, both dealers and collectors; two of these gentlemen have expressed doubts about the authenticity of the coin, while the others have assured us that it is undoubtedly a genuine piece of the period. We call attention to these facts so that there may be no dispute in regard to the coin upon the day of sale. We will be glad to send the names of the experts who have passed upon this coin and photographs of the piece to any collectors who may be interested. We consider the coin to be of the greatest rarity and interest to collectors of Americana.
